Betreff: Craig Schmersal article/Quarter Horse News

Craig asked that I share this article with you, it will be published later this month, so we ask that you please keep it confidential amongst yourselves until it goes to print. Craig and I hope that you as a board, vote for what is best for the horses. It is time we do what is right for them and NOT CONTINUE OUR SMOKE AND MIRRORS POLICY. We have to STOP WORRYING about public opinion and stand up and OWN our organization. We have the best horseman and owners and we trust them to do what is right by their horses, we firmly believe we are capable of policing ourselves. There will always be the special ones that make us scratch our heads and wonder, but no drug policy will fix that. Thank you for the time and commitment you give to our organization by serving on the board. While we may not all agree on policies and rules, Craig and I think we can all agree we

should always do what is BEST FOR THE HORSES. Please confirm that you did receive this letter by sending a quick email back. Sincerely,
